

LIGHT DUTY COMPOSITE SLIDE GATES

Engineered & Built to Order
Easy to Operate
Low Maintenance
Guaranteed Not to Bind
Lb. for Lb. stronger than Steel

25 year
Corrosion
Warranty

Plasti-Fab is a world class manufacturer of composites with over 40 years of experience designing, engineering, and building products for fluid control and management. Plasti-Fab products are fabricated from highly corrosion resistant composite fiberglass reinforced plastic (FRP). Recognized around the world as an experienced innovator and provider of quality composite solutions, Plasti-Fab has a wealth of experience and expertise in flow control products.

KEY FEATURES

- No initial, or on-going, protective coatings required or needed.
- Composite Construction prevents bimetallic Corrosion
- Completely encapsulated core
- Pigmented resin for UV protection
- Resilient Neoprene seals provide minimal leakage
- Composite material offers high corrosion resistance
- Exceeds AWWA C563 Leakage Requirements
- Engineered with Sandwich Core designed to surpass Deflection Criteria

DESIGN FEATURES AND ACCESSORIES

CONVENIENT FEATURES & ACCESSORIES

- Flush bottom seal prevents debris accumulation in bottom guide groove
- Each gate is molded individually to the exact dimensions specified
- Internal Strength matrix, including reinforcing steel, as needed for maximum head pressures
- Operators options include:
 - Hand Wheel
 - Hand Crank
 - Electric Motor Operator
 - Hydraulic Operator
 - Pneumatic Operator

The Plasti-Fab engineered composite Slide Gate is the ideal solution for corrosive environments that have had metal gates seize up, or freeze in place. Composite Gates have no chemical bonds that can be broken down and cause the gate to fail. Composite FRP materials are rust-free and do not corrode like metals. Plasti-Fab Slide Gates have been installed and in operation for over 40 years and continue to operate and function as designed. All Composite materials are guaranteed against corrosion for 25 years.
