

LIGHT DUTY COMPOSITE FLAP GATES

Minimal Operating Head

Corrosion Resistant

Low to Zero Leakage

Light Weight

Engineered & Built to Order

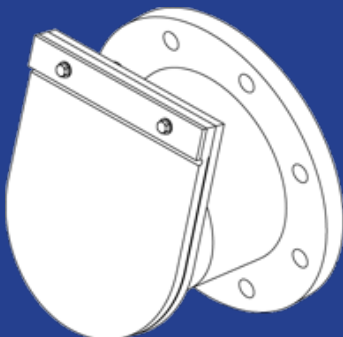

25 year
Corrosion
Warranty

For over forty years, Plasti-Fab has been supplying composite fiberglass reinforced plastic (FRP) fluid control gates for highly corrosive environments. All Plasti-Fab Gates totally encapsulate the internal reinforcing structure. All composite gates offer high corrosion resistance, low maintenance and no need for wall thimbles due their reduced weight characteristics. In addition, composite FRP material is pound-for-pound much stronger than steel. Recognized around the world as an experienced innovator and provider of quality composite solutions, Plasti-Fab has a wealth of experience and expertise in flow control products.

KEY FEATURES

- Designed to withstand maximum head
- Internal steel completely encapsulated in vulcanized rubber
- Lightweight flap requires minimal fluid pressure to operate
- Neoprene or steel hinges
- Wall, flange, or slip-over bell mount

DESIGN FEATURES AND ACCESSORIES

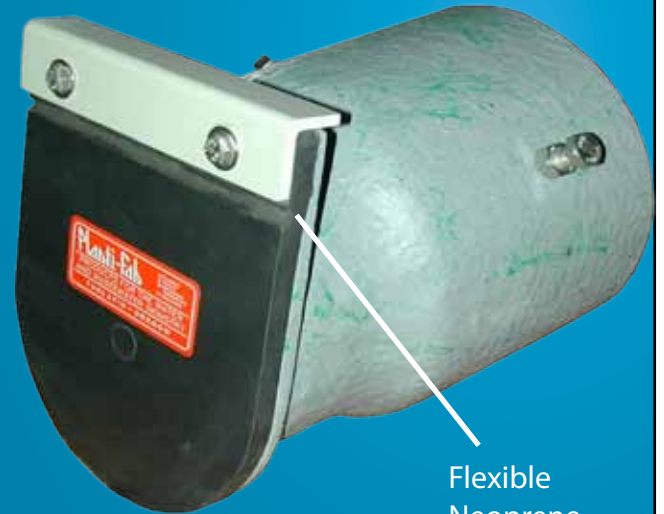

CONVENIENT FEATURES & ACCESSORIES

Corrosion Resistant Flap Construction

- Totally encapsulated steel reinforced Neoprene flap for standard models
- Flexible Neoprene or stainless steel hinges
- Many specially engineered solutions available -- consult representative or factory

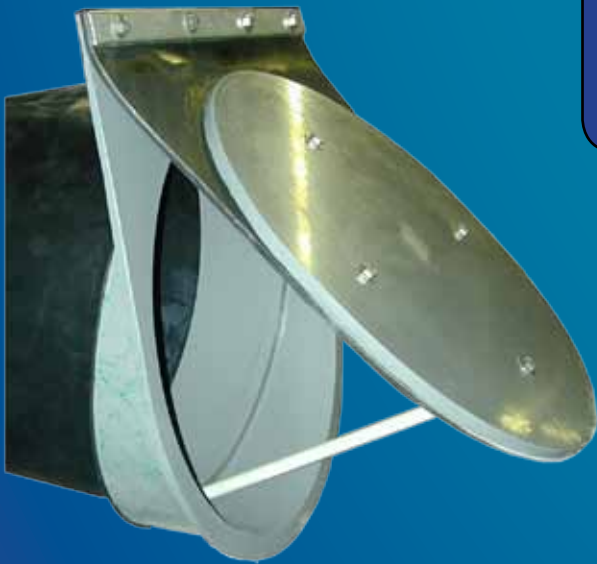

Flap Gate Body Construction

- Composite FRP
- Stainless steel
- Exotic metals

Flexible Neoprene Hinge

Plasti-Fab Composite Flap Gates are engineered to operate with minimal head loss while withstanding significant seating head pressures.

Alternate Designs Available

Wall Mount

Over 40 years of excellence in engineering and fabricating composite flow control products. Composite FRP products offer the best life-cycle value available. Plasti-Fab flow control products have a 25 year corrosion warranty.
